Below is a copy of the Brenau Level II Fieldwork Objectives. Please read and then add any additional site specific objectives you may have. Then please sign below (fieldwork educator and student), indicating you have read the objectives and are in agreement with them.

Brenau Level II Fieldwork Objectives:		
1. Demonstrate reliable and safe work habits.		
2. Demonstrate professional behaviors and consistent application of code of ethics.		
3. Demonstrate effective organizational and time management strategies and follows policy and procedures required in the setting.		
4. Synthesize clinical data from multiple sources.		
5. Accurately perform and interpret selected occupational therapy assessment and treatment techniques with patients/clients.		
6. Analyze and prioritize occupational performance assets and deficits based on data.		
7. Evaluate individuals, interpret data necessary for intervention planning and establish relevant goals and objectives for patients/clients.		
8. Interpret evaluation findings to appropriate individuals and verbalize reasoning behind choice of interventions with patients/clients.		
9. Select, plan, implement appropriate interventions and evaluate the effectiveness of these interventions with clients both on an individual and/or group basis.		
10. Terminate service when maximum benefit is received and formulates after-care plans.		
11. Recognize factors related to social and economic systems that impact client outcomes and adapt environment, tools, materials, and activities according to the needs of the individual and his or her social cultural context.		
12. Identify the roles and responsibilities of other professionals (and or students from other disciplines) within the setting, e.g., Program Director, COTA, SLP, PT, SW, Nursing, Educators, Psychologist, Vocational Counselors, etc.		
13. Documents services as required, and maintains record required by practice setting, payment sources, and regulatory agencies.		
Site Specific Objectives (if not addressed in above areas)		
No additional objectives needed. Above-mentioned objectives meet site specific objectives.	Y	N
