Where in the World Did You Get Those Ideas?

7 P.M. TUESDAY, AUG. 6
Thurmond-McRae Lecture Hall

Almost everything begins with an idea — even BULLI began in someone’s mind 25 years ago, and what a great idea it was.

Have you ever considered the role literature plays in the development of ideas? Uncle Tom’s Cabin galvanized the movement for the abolition of slavery. Feminist writers advanced the still ongoing push for equal rights for all. Essays, short stories, drama, poetry and novels have an enormous influence on our culture. Dr. Martin Luther King Jr.’s Letter from a Birmingham Jail, and Harper Lee’s To Kill a Mockingbird helped to change attitudes and history itself.

Literature is the expression of ideas, the imagination of the mind and heart given voice through words and stories. Come to Thurmond-McRae Lecture Hall at 7 p.m. Tuesday, Aug. 6, and explore the power of literature and imagination to shape our lives and actions.

Who knows, you just might decide to sign up for poetry class. The decision begins inside your own mind and heart.

Presented by
Dr. Bill Coates
